Flag: Follow up

Hello Michelle,
It was great connecting with you and your colleagues last week. Thanks very much for following up and sharing the Smart Growth mapping tool.

It sounds like there are quite a few areas of work where it could be productive to collaborate and align efforts. I'll circle back next week re: how we could include OCR in some of the rural/small town EV charging discussions we are scoping out with the TCI states.

Best,
Matthew

We really appreciated this initial conversation to learn more about GCC's initiatives on EV as well as the TCI and have an open dialogue about what you all are working on, as well as who else is leading in this field (Greenlining Institute, looking to CA's state programs, etc.), and start to talk about gaps/barriers and potential roles for EPA and federal partners in supporting equitable EV and EV infrastructure investments.
>
> Look forward to further conversations and keeping each other in the loop as opportunities arise! Keep us posted on the upcoming meetings with TCI partners and if we might be able to listen in, or if there are other events we could learn from. Thanks!
>
> As mentioned on the call, OCR has a Smart Growth mapping tool that could be interesting to layer with your mapping tools (just including the link here in case you didn't catch it in the Teams chat):

Subject: EPA-GCC discuss EVs
When: Wednesday, July 21, 2021 12:00 PM-1:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Hi all,

We look forward to meeting to discuss EV deployment challenges, including equitable charging infrastructure and other considerations. Thank you to Matthew for coordinating with me to get this on our calendars so quickly!

Look forward to speaking with you next week, and if you have any questions, please don't hesitate to reach out. Thanks!
