DHS Colleagues,

As you're likely aware, the National School Boards Association letter regarding threats/acts of violence against school children, officials, and school board members, has received considerable attention.

I'm working (b)(5) to explore options to address the NSBA's concerns and more broadly the increasingly contentious and sometimes threatening or violent occurrences at schools across the country. While we recognize that this is in large part a state/local law enforcement issue, I wanted to check and see if you were aware of any on-going DHS programming or outreach vectors that could be used to help with this issue.

(b)(5)

We are still in the information gathering phase and trying to determine what options are available to help.

DHS Colleagues,

As you're likely aware, the National School Boards Association letter regarding threats/acts of violence against school children, officials, and school board members, has received considerable attention.

I'm working (b)(5) to explore options to address the NSBA's concerns and more broadly the increasingly contentious and sometimes threatening or violent occurrences at schools across the country. While we recognize that this is in large part a state/local law enforcement issue, I wanted to check and see if you were aware of any on-going DHS programming or outreach vectors that could be used to help with this issue.

John – Many thanks for the thoughtful reply, excellent summary, and helpful resources from (b)(5) (b)(5)

Mike – Going forward, please feel free to reach out to me with similar requests, so I can serve as a POC on the front end. Our efforts often draw from the work of several DHS offices and components, and I can help to ensure that our response is coordinated and hits the mark.

Best,
Lucian

DHS Colleagues,

As you're likely aware, the National School Boards Association letter regarding threats/acts of violence against school children, officials, and school board members, has received considerable attention.

I'm working (b)(5) to explore options to address the NSBA's concerns and more broadly the increasingly contentious and sometimes threatening or violent occurrences at schools across the country. While we recognize that this is in large part a state/local law enforcement issue, I wanted to check and see if you were aware of any on-going DHS programming or outreach vectors that could be used to help with this issue.

(b)(5)

We are still in the information gathering phase and trying to determine what options are available to help.

Thank you all in advance,
Mike
