I'm staffing it, yes!

We're going to talk about some principles for enforcement that we are putting together for how IRS should go after high-end. And also going to ask for ideas about how best to mobilize support for IRS funding efforts in the next few months (so in that sense, very related to reconciliation). And will get into some of the research that we're working on in equity and tax space. Is that helpful? Happy to jump on phone w/ you guys too of course.

Natasha,
Our new(ish) President, Sharon Parrott, is participating in this meeting Wally has called w/ a few key outside folks this week. I think the topic is supposed to be about IRS modernization. Are you staffing this meeting? Sharon can obviously thank him for the leadership here, and we have an EITC/CTC error rate issue to raise, but more broadly, do you know what the real goals are for this meeting? Will it get into reconciliation tax issues at all?
We're talking to Sharon now.
Tx
Ellen and Chuck
