Joe Biden Must Resign or Be Removed

Dear President Biden:

Joe Biden must resign from the office of President of the United States right now or be removed as incompetent under the 25th Amendment.

For months the media and other Democrats concealed Joe's deteriorating mental state in the hopes that he might win re-election. But his debate performance laid bare before the entire world that you are not mentally competent to execute the office of President of the United States. Joe admitted this by declining his party's nomination for president. But BEING president is so much more important and demanding a job than RUNNING FOR president.

Resigning is the only way that, in your diminished state, Joe can uphold the oath he swore to preserve and protect the Constitution.

Joe: Please do the right thing. Resign immediately.

Kamala and the cabinet: If he refuses to resign, you must act under the Constitution to remove the mentally incompetent commander in chief.

Sincerely,

Subject: Offer of Unique Medical Treatment for the President

Dear Secretary McDonough,

Can you please help me pass on this message from me to President Biden? I have some unique medical skills that I utilize for treating our veterans at the VA hospital in Los Angeles, and would like to offer these treatments to President Biden in order to help his campaign for re-election in any way that I can.

Thanks,

(b)(6) M.D.

==========

Dear President Biden,

I would like to offer my medical services to you, in an effort to help you win the bid for re-election against a would-be dictator who would seek to destroy our democracy. However, I do not have the ability to send you a message directly, so I am enlisting the help of Secretary McDonough, with the hope that this message will be passed on to you.

I currently serve as the Associate Chief of Integrative Medicine at the Greater Los Angeles Healthcare System of the Department of Veterans Affairs, where I have proudly worked for nine years. My term of VA employment also includes over a year of voluntary service on the frontlines of the pandemic, where I fought COVID-19 from the gates of the Emergency Department in 2020-2022. In addition to being a double board-certified doctor of internal medicine and integrative medicine, I also provide unique forms of acupuncture and osteopathic manipulative treatment to our nation's veterans, including a specialized treatment known as Osteopathy in the Cranial Field that is aimed at healing injuries of the brain and strengthening the circulatory and central nervous system. Many of the veterans that I treat are recovering from traumatic brain injuries, dementia and other forms of neurodegenerative decline, which are conditions that I specifically focus on treating in these cases. I received a special award of distinction for my service to our nation's veterans from the former Secretary of Veterans Affairs, Robert Wilkie (please see attached photo).

Additionally, I am a staunch supporter of you, Vice President Kamala Harris and President Barack Obama, and the noble goals that you have strived to achieve in the progress and service of our nation. I am also staunchly opposed to Donald Trump and the dangerous, dishonest, dictatorial agendas that he and the Republican Party sadly seek to impose on the American people.

Having watched the first presidential debate last week, as well as the ABC News interview with George Stephanopoulos last night, I would like to offer my medical services to help optimize your health, sharpness and readiness to fight the next leg of the battle to retain the office of President of the United States of America, and to keep Donald Trump from ever setting foot in the White House ever again. Whether you have been formally diagnosed with a medical condition that may impair your stamina and sharpness does not matter, as the treatments that I perform with acupuncture and osteopathic manipulation are not dependent on having any specific diagnosis. Rather, these treatments are aimed at optimizing structure and function, circulation, freedom of motion, health and vitality throughout the body. Many of my patients come to me suffering from nebulous symptoms of "brain fog" following combat involving IEDs and other explosive devices, COVID-19 infection, cancer treatment, motor vehicle accidents and a slew of other causes. Many of them end up experiencing significant improvements in

their cognition, digestion, pain, energy, sleep, strength and stamina in the course of undergoing the unique and powerful treatments that I provide.

If you would be willing to allow me to treat you at least one or a few times prior to the next debate with Donald Trump, I believe that my treatments could provide significant benefit in terms of physical and mental health, strength, sharpness, speed and battle-readiness. I would be happy to make regular trips to meet you for these treatments in Washington D.C., even on a weekly basis if needed. I would also be prepared to maintain the strictest confidentiality about your health and my involvement in your medical care.

Please feel free to reach out to my Division Chief and supervisor, (b)(6) M.D., or to the Chief of Staff and Medical Director at the VA Greater Los Angeles Healthcare System, if you and your team would like to inquire about my record of service and the results that I regularly obtain from treating our veterans. Testimonials from my private practice with civilian patients can also be found here:

My cell phone number is (973) 868(b)(6) and I would be happy to discuss the services that I can offer via telephone as well. Please feel free to reach out if you have any questions. And whether you enlist in my help or not, I wish you success, as many of us are depending on you and your team to ensure that freedom and morality continue to be upheld as the gold standard in this country. God bless you, and God bless the United States of America.

Sincerely,

Joe Biden Must Resign

Dear President Biden:

It is in the best interest of our country for you to resign from the office of President of the United States.

For months the media and other Democrats concealed your deteriorating mental state in the hopes that you might win re-election.

But your debate performance laid bare before the entire world that you are not mentally competent to execute the office of President of the United States.

The subsequent explanation from staff that you are functional most days from 10am to 4pm indicates you are, at best, a part-time president.

Resigning is the only way that, in your diminished state, you can uphold the oath you swore to preserve and protect the Constitution. It would demonstrate commitment to the well-being of our country, prioritizing the needs and confidence of the American people over personal or political considerations.

Please do the right thing. Resign immediately and enjoy your final years peacefully.

Sincerely,
